

V76005020

Lemon flavored wine-based beverage cl 20

The Spritz is a traditional Italian cocktail with a long history, linked to the Habsburg domination in the Lombardo-Veneto Kingdom. To create the Lemon Spritz we got inspired by our Bottega Spritz, a cocktail based on sparkling wine, Limoncino - our lemon liqueur - and mint leaves. The Lemon Spritz is a ready-to-drink cocktail with a low alcohol content thanks to the use of only lemon infusion instead of Limoncino. Its pleasantly refreshing taste makes it a new and interesting version of the traditional Spritz.

Production Area: Veneto, Italy

Characteristics:

Lemon Spritz derives from the combination of white sparkling wine, infusion of lemons organically grown in Sicily (the same used for Limoncino, our lemon liqueur) and mint. Its bubbles comes from the sparkling wine and not by the addition of carbon dioxide, making it fresh and lively. The correct pairing and dosing of quality ingredients lead to a product with a full, strong character, with low alcohol content, perfect for leisure time spent with friends.

Organoleptic Characteristics:

Color and Appearance: Slightly cloudy yellow.

Bouquet: Intense lemon aroma, combined with hints of mint and fruity notes from the white sparkling wine.

Taste: Fresh and full, with hints of citrus fruits and wine. On the palate it has a bitter-sweet taste.

Chemical Characteristics:

ABV: 5,4%

Serving Temperature: 3 °C

Serving Suggestions: It is a ready-to-drink cocktail, to be served cold, pure, on the rocks or with mint leaves. It is a perfect match with savory snacks like chips and peanuts and with cheese as well.

Enjoy it within: 36 months.

Recommended Glass: Symphony.
